Okpik Winter Camping

Embark on the greatest winter camping adventure that will ever challenge you as a Boy Scout. Okpik will give you the skills to go where few dare. Established in 1986 at Camp Tahosa in Ward, Colorado, the Denver Area Council's Okpik Winter Camping is ready for you!

This two day and two night adventure develops confidence and skills in camping and living in the outdoors during extreme weather conditions. Receive training in physical preparation, cold weather dress, first aid and emergency procedures, food and water, equipment use while experiencing cross-country skiing, snowshoeing and winter shelter building.

Okpik is state-of-the-art training to give leaders, (both youth and adult), confidence in taking groups into a cold environment and support a year-round camping program. Our cold weather training is appropriate only for those leaders and campers who already have basic Scouting skills and mild weather camping experience. Our training includes skills that can ensure a successful, fun and safe cold weather camping experience. These must know skills are important because cold weather camping mistakes can be serious and certainly are not something upon which to build young Scout's experience.

Units enrolled for a training weekend should plan to **arrive at Camp Tahosa no later than 6:30 p.m.** on the Friday night of their weekend. Friday night is spent in a classroom setting where the Okpik staff will give instructions in cold weather camping and then you'll spend the first night in a cabin. On Saturday morning after breakfast, everyone packs up and moves into the backcountry. The day is spent building quinzees (piled snow domes), cooking meals and exploring the winter woods. The experienced Okpik staff will stay in the field during the weekend observing and supervising you as you use the skills taught on Friday night. After spending a night in the quinzees you built, we return to the Training Lodge for a wrap up session. The course will end after lunch on Sunday, approximately 12:00 Noon.

Be sure to examine the equipment list carefully. Every required item must be brought with you. We do provide some supplemental clothing and bedding items, but each participant must provide the essentials. A full and varied menu is provided, so it is not necessary to bring any food or snacks.

Okpik Winter Camping is a very strenuous weekend. All of your gear and food for the weekend is pulled on sleds, most of the day is devoted to shelter building and it can be very cold. Youth should have the size and maturity to complete and enjoy the weekend. All participants should do physical training to condition themselves for a very invigorating and challenging weekend. The Okpik staff will provide a course regardless of the snow conditions. There will be no cancellations due to the weather (lack of snow). Depending on the snow conditions, be prepared to ski or backpack into the backcountry.

The OKPIK experience is best enjoyed as a group activity. ALL GROUPS MUST HAVE AT LEAST TWO ADULTS. Parent/Guardian and Scout participation is certainly encouraged. The B.S.A. Youth Protection Guidelines will be followed with team assignments (teams of two) made on the first evening at the discretion of the Okpik staff. Youth should have the physical size and maturity to enjoy and complete a very rigorous weekend. YOUTH MUST BE 13 YEARS OLD AND 1ST CLASS AS OF JANUARY 1, 2019. NO EXCEPTIONS! Course is limited to 26 participants.

The attached registration and health history form must be completed at least three weeks prior to your assigned weekend. Cost is \$110.00 per person. Fees are due when you reserve your Okpik dates. No reservations are held without full fees paid! Fees are transferable and not refundable. OKPIK REGISTRATIONS ARE ACCEPTED ON A FIRST COME/FIRST SERVED BASIS.

OKPIK EQUIPMENT

For your winter camping experience, Okpik provides the necessary camping and cooking equipment, food, skis, and snowshoes. Some supplemental clothing and sleeping gear are also supplied. Please be aware that each participant must provide items such as sleeping bags, hats, socks, boots and long underwear.

As you prepare for the weekend, there are several important points to remember about materials and insulation and how to stay warm. Remember:

- Wool is a better insulator than cotton. Even when wet, wool still retains its insulating value. Check surplus and thrift stores as sources for wool items.
- Goose down, a very good insulator, is difficult to use in a field-type setting. Once wet, down is very difficult to dry and loses all of its insulating value. Use down only if you're experienced in how to handle it.
- The preferred insulator for sleeping bags and jackets are synthetic fills, such as Hollofill, Quallofill or Thinsulate, as an example.
- The preferred and popular fiber today for outdoor clothing are the fleeces such as Polarfleece and Polartech. These synthetics are great insulators and are making wool obsolete for winter clothing.

RECOMMENDED EXTRAS

These items are recommended, depending on personal preference and what you have available.

- ◆ A vest (insulated or fleece)
- ◆ Polypropylene glove liners
- ◆ Sock liners
- ◆ Personal items: toothbrush, chapstick, extra underwear, etc. (Items you usually take camping).
- ◆ Pocket knife.
- ◆ Canteen or water bottle
- ◆ Candle lantern
- ◆ Personal first aid kit
- ◆ Travel games, playing cards
- ◆ Reading material.

DIRECTIONS

Tahosa is approximately a 2 1/2 hour drive from central Denver. This will vary depending on road conditions. Drive northwest to Boulder, Colorado. Take Canyon Boulevard or Arapahoe Avenue west, the streets eventually merge into CO 119. Continue west into Nederland. In Nederland, turn north on CO 72. You will pass the outskirts of Ward. 4.5 miles beyond Ward, turn off CO 72 west onto a county road to Camp Tahosa. There is a sign for Tahosa on CO 72, it appears quickly so be on the lookout for the sign.

REQUIRED ITEMS

You MUST Bring These Items! Check them off as you pack them

An excellent idea is to pack spare clothes in large zipper bags to keep them dry and easy to identify. Bringing a trash bag to put wet gear in is a great way to stop them from getting mixed up with dry, clean gear.

- Sleeping bag, a "3-season" bag is adequate; we will provide a supplemental outer bag and fleece liner if you need it.
- Duffel bag or sport bag — pack all your gear in this. No frame packs! (Exception would be on a "no snow" weekend when we have to backpack in). Your bag, gear and water needs to fit in a pulk, so no oversize bags please.
- Stocking cap - Balaclava style is best.
- 3 pairs of mittens (mittens are warmer than gloves) one for piling the snow, one for digging out in the afternoon and a pair for Sunday morning.
- 2 - 3 sweaters and/or shirts (wool or fleece are best)
- Winter coat, preferably hooded
- 1 - 2 sets of synthetic, wool blend or silk long underwear. **Under no circumstances should this layer be cotton**
- 1 - 2 pairs of pants, loose fitting wool army surplus pants with suspenders are perfect. Option B would be insulated ski pants. **No jeans or cotton!**
- 3 pairs of socks **minimum** (wool and wool blends are best)
- Pack boots with removable felt liners (Sorrels, as a brand name, are an example). No leather hunting boots, please.) Leather will get wet and be cold. We will not accept anyone with leather boots.
- Sunglasses
- Ground cloth and closed-cell pad**
- Flashlight with extra batteries
- Sun protection
- Gaiters are strongly suggested**
- An empty Nalgene that can be filled with hot water and put in your sleeping bag at night time
- A brightly colored and obvious water bottle that will be used in emergencies at night. We'll explain more on Friday evening!
